

Welcome *Home*

For over 140 years, Tarkett has combined the talents, values, and commitment of entrepreneurs across the globe to create beautiful, quality flooring. With segments ranging from hospitality to sports surfaces - it's no secret that we want to provide innovative flooring wherever life takes you.

While Tarkett's North American residential segment proudly celebrates the successes of each of these other parts of the company, we also know the journey begins and ends with a special place called **HOME**; and we are eager to provide you with options that celebrate the life you love, in the space that's uniquely you!

This is why Tarkett Residential is now Tarkett Home.

We want you, our customers, to know that we're putting the same level of love and care into our products that you deserve for the world you're building. We look forward to taking this journey together, as we invite you to make your special space a **Tarkett Home**.

Love the
day to day.
